

Future Together

- What kind of life do I want in five years?
- Which goals do I want to pursue together?
- How much independence do I need?
- What does quality time look like to each of us?
- Where do our lifestyles actually align?
- How do I think about saving, spending, and financial responsibility?

What role should work have in our lives?

- Where would I ideally live?
- What does "home" mean to me?
- Do I want children, pets, or neither?
- What family responsibilities matter to me?

What does commitment mean to me?

- What would make me feel secure without feeling controlled?
- Which expectations about relationships did I inherit from others?
- What would a compatible future look like for both of us
